

## TIPS FOR READING TO YOUR GRANDCHILD:

- Select books according to your grandchild's age – we've made some suggestions to make it easy for you to get started
- Follow your grandchild's interests and select books about the things they like. Bugs, fire trucks, dinosaurs, whatever it is, there is a book about that topic!
- Borrow great books from the library, for free!

The grandparent-grandchild bond is a special relationship, one that supports healthy emotional development in children, and brings both grandparent and grandchild great joy.

Grandparents can play an important role in promoting reading with even with the youngest children.

Create connections that last a lifetime by taking time to read, talk and sing together!

Read to Me is a Nova Scotia's early reading promotion program.

We provide a free bag of books and reading resources to every baby born in Nova Scotia, at the hospital bedside.

Follow us to learn about more great books for young children.
