

TIPS FOR READING TO YOUR CHILD

- Select books according to your child's age. We've made some suggestions to make it easy for you to get started
- Develop a bedtime reading routine
- Borrow great books from the library, for free!

Did you know that being read to by fathers predicts better language development in young children?

Research shows that fathers and father-figures are particularly important to a child's language and reading development.

When fathers read to their children, they tend to ask more questions and have more conversations about the world beyond the book.

So, grab a book, and read to the little ones in your life!

Read to Me is a Nova Scotia's early reading promotion program.

We provide a free bag of books and reading resources to every baby born in Nova Scotia, at the hospital bedside.

Follow us to learn about more great books for young children.
